1. Challenge-Based Learning in Creative Environments combining Practical Training with Impactful Work Experience

VIRTUAL EXPERIENCESHIP

Our Virtual Experienceship is the perfect way to invest in your professional development and get ahead of the crowd whilst studying. The first stage is to help you become work ready. For 4 weeks you will receive online training in remote working skills, developing your professional profile and managing client projects. In the second stage of the program, we connect you with an international client, giving you the opportunity to put your training into practice and complete a project for one of our affiliated clients.

We have designed this program to be completed part-time so that it fits around your studies. You will use our online site to access videos and worksheets relating to that week's topic as well as having a weekly check-in with your Corkscrew Coach who will make sure you are on track and can answer any questions you have.

WORK-READY TRAINING

Working Remotely is becoming more and more popular with both employers and employees around the world. Learn the key skills and tools needed to make working remotely work for you.

Everyone in the world owns a brand. Brand 'You'. It is highly important that you pay attention to both your online and offline brand as it impacts the way other people view and treat you.

Communicating clearly and confidently with colleagues, managers and clients is key. Expand your Emotional Intelligence and make sure that you can adapt your communication to different environments and situations.

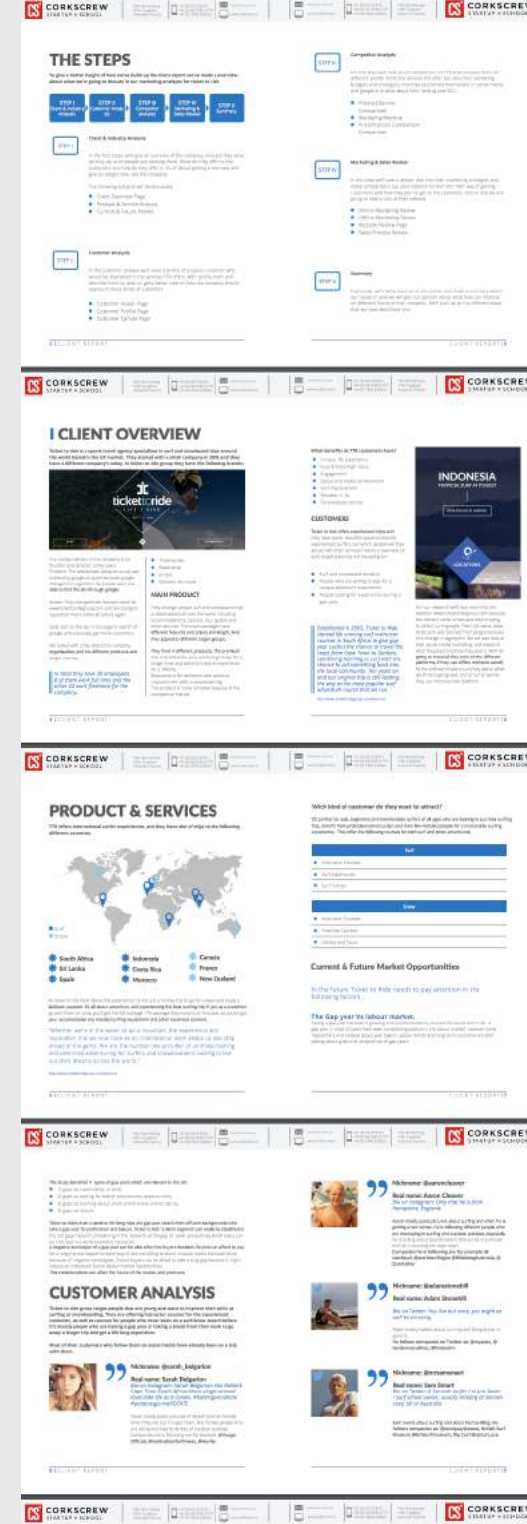

Whether working as a freelancer or as part of a company team, time management is a critical skill. This includes managing workloads, deadlines, international time zones and work/ life balance.

BUILD YOUR PROFESSIONAL PORTFOLIO

The focus of the Virtual Experienceship is on you developing your professional skills but also on building a kick-ass portfolio. During the application process, we will work with you to determine which of V.E projects you would be best suited to and which one you will gain the most value from.

The projects are:

- Business Analysis
- Graphic Design
- Social Media
- Copy Writing
- Data Analysis
- Content Creation

CLIENT PROJECT

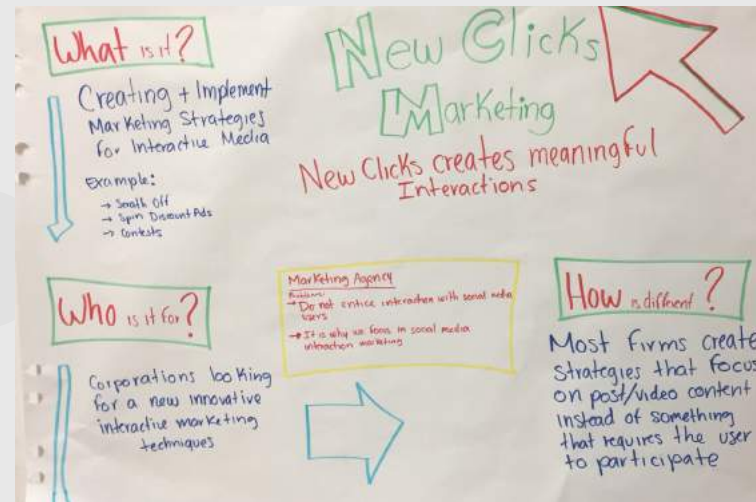

Although your coach will be on hand to support and guide you through the project, the Virtual Experienceship has been designed to give you the opportunity to develop key project management skills; self-management, time-management and client-management. This is the perfect opportunity to develop these skills, understand where your strengths and weaknesses are and identify areas of life-long learning that you should invest in. Wave goodbye to the days of being told that you need more experience and wow potential employees with your knowledge of and ability to work effectively both remotely and independently.

COURSE DELIVERY

Each week focuses on a new topic that builds into an overall journey - everything you need to know about business startup- from start to finish.

The program has a large emphasis on working in varied groups to create and present new ideas, supporting leadership and presentation skill development throughout. 1-to-1 support is given by your coach on a daily basis to encourage student's own ideas development. Online support is provided out of hours and all program materials as well as various bonus learning materials are accessible during and post-program through our members Backstage area.

CORKSCREW COMMUNITY

I have to work during the summer vacation to fund my studies so when I heard about the Virtual Experienceship I was so excited. It has allowed me to add experience to my resume as well as help prepare me for life after University!
Beth, USA

Doing the Virtual Experienceship has not only help build my confidence in knowing I am ready for work but it has also matured the approach that I take to my college work! I am more ficused and make much better use of my time.
